EDUCATION

University of the Cordilleras

Baguio City, Benguet, PH

Bachelor of Science in Computer Science

WORK EXPERIENCE

Studio Sagud

Baguio City, Benguet, PH

Creative Intern

May 2025 - Dec 2025

- Improved the visual flow of an in-development mobile card game, measured by successful internal team playtests, by designing and iterating on the core UI layouts.
- Delivered a fully interactive company website design, resulting in a functional Webflow build, by creating high-fidelity prototypes in Figma.
- Ensured a stable player experience with minimal post-update defects, measured by the resolution of 3 bug reports, by conducting manual gameplay testing to identify and log core mechanic glitches.
- Defined the core visual direction of a new card game, demonstrated by a completed set of presentation slides, by collaborating with a team to design the gameplay mechanics and UI.

PROJECT EXPERIENCE

Academic Projects

Baguio City, Benguet, PH

Graphics Design

- Established a cohesive brand identity for a conceptual mental health organization, demonstrated by a complete visual design package, by creating a high-fidelity website mockup, physical brochures, and business cards.

Mobile Application Design and Development

- Successfully developed a functional health application, measured by a working Android Studio build, by collaborating with a team to map user experiences, design wireframes, and code the front-end layout.

Thesis

- Evaluated the efficiency of different AI architectures, measured by the responsive behavior of in-game enemies, by programming a 2D action-platformer using Godot to actively compare Finite State Machines and Behavior Trees.

Independent Project

Baguio City, Benguet, PH

Filipino Dictionary Mobile Applicaton

- Completed a fully functional mobile dictionary app, proven by a successfully exported Android .apk file, by designing custom UI themes and troubleshooting the final build process in React Native and Expo.

LEADERSHIP EXPERIENCE

Academic Leadership

Baguio City, Benguet, PH

Project Initiation & Management

- Kept academic development projects strictly on schedule, resulting in 100% on-time milestone submissions, by initiating team workflows and tracking digital asset progress.
- Aligned the team's visual direction with the final coded build, measured by a lack of design inconsistencies in the final product, by coordinating regular communication between the design and programming members.

SKILLS & INTERESTS

Skills: Microsoft Office, Google Suite, Canva, Video Editing, QA Testing, Data Management, Research, Project Management, Time Management, Spreadsheets, Calendar Management, Teamwork, Collaboration, Problem Solving, Attention to Detail, Communication

Interests: Design and Development (Games, Websites, Mobile Applications)
